

Vedant Yeola

DevOps & Cloud-Native Full Stack Developer

+91 7666340113 | vedantyeola16@gmail.com | linkedin.com/in/vedant-yeola | github.com/VedantYeola

Professional Summary

High-achieving Computer Science graduate student (**8.92 CGPA**) specializing in **Cloud Infrastructure** and **DevOps**. Proficient in architecting serverless AWS environments and automating complex deployment lifecycles using **Terraform** and **GitHub Actions**. Proven expertise in developing AI-integrated full-stack applications with high availability.

Technical Skills

Cloud & DevOps: Linux (Shell scripting) AWS (EC2, S3, Lambda, Cognito, IAM, RDS, CloudWatch), Terraform, AWS CDK, Docker, Kubernetes, Jenkins, GitHub Actions, Ansible, SonarQube

Networking: VPC, Subnets, Security Groups, Load Balancers

Languages & DB: Golang, Python (Boto3), SQL (PostgreSQL, MongoDB), JavaScript, Neon DB

Frameworks: Next.js, React, Node.js, FastAPI, Streamlit, Tailwind CSS, Drizzle ORM

Tools/AI: Gemini AI, MLflow, Git, Firebase, Postman, Vercel

Experience

Full Stack Developer Intern

Jan 2026 – Present

Technical One

Pune, India

- Developing scalable web architectures with React and Node.js, resulting in a 35% performance boost via optimized state management.
- Building **CI/CD pipelines** using GitHub Actions to automate testing and multi-environment staging on Vercel.
- Managing **Cloud Infrastructure** including IAM roles and S3 event-driven Lambda triggers for data processing.

Projects

AI-Powered Cloud Expense Auditor | AWS, Python, CDK, Lambda, S3, BedRock

Jan 2026

- Architected a **Serverless** auditing system using **AWS CDK** to identify cost anomalies across billing reports.
- Implemented S3 bucket notifications to trigger Lambda functions for real-time analysis, reducing manual auditing by 80%.
- Configured **Least-Privilege IAM policies** to secure cross-service communication between S3, Lambda, and DynamoDB.

AI Trip Planner Web Application | React, Firebase, Gemini API, Tailwind

May 2025 – June 2025

- Developed a full-stack travel engine generating personalized itineraries based on budget and duration using **Gemini AI**.
- Architected a real-time data layer using **Firebase Firestore** for seamless cross-device trip synchronization.
- Integrated Google OAuth for secure, frictionless user authentication and user-specific itinerary management.

AI Mock Interview Platform | Next.js, Gemini AI, Neon DB, Drizzle ORM

March 2025 – April 2025

- Built an AI platform generating role-specific interview questions and providing real-time technical feedback via Gemini API.
- Designed the database schema using **Drizzle ORM** with Neon DB, ensuring 100ms query latency for candidate data.
- Implemented real-time speech-to-text processing for voice responses, enhancing user accessibility and engagement.

Education

Sir Parashurambhau College

Pune, India

Master of Science in Computer Science (CGPA: 8.92)

2024 – Ongoing

Sir Parashurambhau College

Pune, India

Bachelor of Science in Computer Science (CGPA: 7.63)

2021 – 2024

Certifications

AWS Cloud Practitioner Essentials: Verified cloud infrastructure and security fundamentals.

Generative AI-Training Badge: AWS Educate training focused on AI integration and Prompt Engineering.

Python Programming: Powered by Wipro DICE ID.
